ANNUAL REPORT OF THE AUDITOR OF THE
STATE OF NORTH CAROLINA FOR THE FISCAL
YEAR ENDING NOVEMBER 30TH, 1883.

STATE OF NORTH CAROLINA,
AUDITOR'S DEPARTMENT,

Raleigh, December 1st, 1883.

To His Excellency, THOMAS J. JARVIS,

Governor of North Carolina :

DEAR SIR:--I have the honor to herewith submit for your examination and consideration the following report of the transactions of this department, as authorized by law, for the fiscal year ending November 30, 1883.

You will observe that this report covers a period of fourteen months, the last General Assembly having enacted that the fiscal year of the State government should annually close on the 30th day of November instead of the 30th of September, as formerly.

Statement E gives the several sources from which the receipts into the public fund are derived. These receipts amount, for the fourteen months, to \$965,107.08. This amount is subject to a deduction of \$46,500 received from the license taxes on fertilizers, which are exclusively for the support of the Agricultural Department, and are not a part of the revenues of the State government proper. They are chargeable to the State Treasurer, however, as the law requires that officer to issue said licenses,

and apply the amount so received to the use of the Agricultural Department.

The dividends accruing to the State on its stock in the North Carolina Railroad Company, amounting, as far as received, to \$124,320, also form a part of the public fund receipts. The law requires the State Treasurer to apply said dividends to the payment of interest on the bonds issued by the State on account of the North Carolina Railroad, renewed under the act of March 14, 1879.

Special reference is also made to the item \$29,750, "Interest on mortgage bonds, Western North Carolina Railroad." This amount was paid to the State Treasurer by the authorities of the Western North Carolina Railroad Company, to meet the interest on the mortgage bonds of said company.

The amounts herein specially referred to, to-wit: \$46,500 tax on fertilizers; \$124,320 North Carolina Railroad dividends; and \$29,750 from the authorities of the Western North Carolina Railroad, aggregating \$200,570, being deducted from \$965,107.08, the amount of receipts reported, leaves \$764,537.08, the legitimate receipts applicable to the support of the State government proper and the charitable and penal institutions.

Statement F shows the different purposes for which the disbursements of the public fund were made, as embracing the fourteen months to November 30, 1883. These disbursements amount to \$944,343.76. This amount is subject to a deduction of \$46,500 on account of the Agricultural Department, as before explained, and \$33,565, interest paid on mortgage bonds by the authorities of the Western North Carolina Railroad, through the State Treasurer.

The item of \$166,620, interest on renewal bonds of the North Carolina Railroad, forms a part of the disbursements, these funds being paid to the State Treasurer for that purpose, as before explained. Deducting these amounts (\$46,500, \$33,565 and \$166,620, amounting altogether to \$246,685) from the disbursements, \$944,343.76, leaves \$697,685.76 as the legitimate expenditures for the fourteen months, provided for from the ordinary revenues of the State.

It may be proper to state further, however, that the payments to the several asylums, Institution for the Deaf and Dumb and the Blind, Penitentiary and the University embrace a portion of two years' appropriation to each, owing to the fact that balances due at the close of the former fiscal year, ending September 30, 1882, were not called for until after the new fiscal year had commenced.

I am, very respectfully,

Your obedient servant,

W. P. ROBERTS,

Auditor of State.

ANNUAL REPORT OF THE AUDITOR OF THE
STATE OF NORTH CAROLINA FOR THE FISCAL
YEAR ENDING NOVEMBER 30TH, 1884.

STATE OF NORTH CAROLINA,
AUDITOR'S DEPARTMENT,
Raleigh, December 1st, 1884.

His Excellency, THOMAS J. JARVIS,
Governor of North Carolina :

DEAR SIR:—I have the honor herewith to submit for your information, and transmittal to the General Assembly, the Annual Report of this Department for the fiscal year ending November 30, 1884. You will observe that Statement E gives the several sources from which the public fund receipts are derived, and which are larger this year than usual, by reason of the fact that on the 1st day of May last the authorities of the Western North Carolina Railroad paid into the State Treasury the sum of \$600,000, as provided in chapter 241, Laws 1883, it being “An Act to amend an Act to provide for the sale of the State’s interest in the Western North Carolina Railroad Company, and for other purposes.”

These receipts foot up \$1,436,775.66, but are subject to these items of deduction, viz.:

1st. \$40,000 received from the license tax on fertilizers, which is for the exclusive use of the Agricultural Department and is not a part of the revenues of the State government. However, it is chargeable to the State Treasurer, as the law requires

that officer to issue these licenses and apply the amount so received to the use of said Agricultural Department.

2d. Dividends accruing to the State on account of its stock in the North Carolina Railroad Company, amounting to \$123.120, and also a part of the public fund receipts, and the law requires the Treasurer to apply such dividends to the payment of the interest on bonds issued by the State on account of the North Carolina Railroad and renewed under Act March 14th, 1877.

3d. \$10,000 received from the sale of the old Governor's Mansion, applicable to the construction of the new Mansion.

4th. Reference is also made to item \$105, "Interest on mortgage bonds Western North Carolina Railroad." This sum was paid into the Treasury by the authorities of said railroad to reimburse the Treasurer for excess of coupons paid on mortgage bonds of said company. These four items referred to, to-wit: \$40,000 on fertilizers, \$123,120 dividends on North Carolina Railroad stock, \$10,000 from the sale of the Governor's Mansion, and \$105, "Interest on mortgage bonds Western North Carolina Railroad," aggregating \$173,225, being deducted from \$1,436,775.66 receipts reported, leaves \$1,263,550.66 as the legitimate receipts applicable to the support of the State government proper, and to the support of the charitable and penal institutions.

Your attention is also directed to Statement F, which shows the different purposes for which the public fund disbursements are made. The disbursements amount to \$785,641.78, but this amount is subject to a deduction of \$40,000 on account of the Agricultural Department, \$125,700 interest of renewal bonds of the North Carolina Railroad, as before explained, and which constitute a part of the Treasurer's disbursements, \$10,948 on account of Executive Mansion, and \$13,700 on account of construction of railroad from Statesville to Taylorsville. These items aggregate \$190,348, and being deducted from the total disbursements, \$785,641.78, leaves \$595,293.78 as the legitimate expenditures provided for the ordinary revenues of the State.

The estimated expenditures of the State government, which I am required by law to submit to the General Assembly, based

upon the expenditures of the two previous years, and for which taxes must be levied and collected, will be about \$590,000 annually, and are itemized as follows, to-wit:

General Assembly, per diem and mileage	\$ 57,000
Executive or State Departments	25,000
Judiciary	38,000
General expenses not provided for by special appropriation, including public printing, pensions to maimed ex-Confederate soldiers, conveying convicts to the Penitentiary, contingencies, &c.	60,000
Penitentiary	75,000
University of North Carolina	12,500
Orphan Asylum (Oxford)	5,000
Normal Schools	8,000
Institution for the Deaf and Dumb and the Blind	36,000
State Guard	3,750
North Carolina Insane Asylum (support)	58,000
Western North Carolina Insane Asylum (support)	40,000
“ “ “ “ “ const. acc't.	35,000
Eastern “ “ “ “ (support)	25,000
Interest on four per cent. consolidated bonds now outstanding	112,000
Total estimates	\$590,250

Now, to meet these expenditures the Treasurer had on hand at the close of the fiscal year \$926,086.98, and to this amount must be added the taxes (estimated) accruing to the State from Schedules B and C (unlisted taxes), which will net for the two years \$160,000; also, taxes from all other sources, which will make \$180,000 additional. These amounts, \$926,086.98 on hand, \$160,000 B and C Schedule and \$180,000 from other sources aggregate \$1,266,086.98, which appears to make a sum sufficient for the ordinary expenses of the State government. But in order that the Treasurer may be able, without embarrassment, to meet expenses on account of the possible aggregate increase of appro-

priations, I submit that as the assessed value of property is about \$200,000,000 that a levy of ten cents on every one hundred dollars value of property, for the year 1885, in addition to the estimated revenues from other sources named above, will be sufficient for all legitimate purposes.

I see no reason why the State should collect from its people large sums of money, in the shape of taxes, when the condition of the State Treasury does not require it. But as the Treasury should be provided against any embarrassment resulting from any possible diminution of revenue from licenses, &c., I recommend the above basis of taxation, because it will, in my judgment, afford abundant revenue for all State purposes and at the same time give material relief to our tax-paying people.

In conclusion, I respectfully recommend that the tax levy be so adjusted that at the close of each fiscal year the cash balance in the hands of Treasurer should not be excessively large.

Below I append a note in regard to certain fees which are collected by the Attorney-General and disbursed by him, and which are fully explained in said note.

I am, very respectfully,

Your obedient servant,

W. P. ROBERTS,

Auditor.

NOTE.—The Attorney-General reports the amount of fees received from defendants convicted in State cases in the Supreme Court to be on an average of one hundred dollars each term of the Court, which is appropriated by Sections 3728 and 3729 of The Code for clerical assistance in the preparation of the Supreme Court Reports.

ANNUAL REPORT
OF THE
AUDITOR OF THE STATE
OF
NORTH CAROLINA,
FOR THE
FISCAL YEAR ENDING NOVEMBER 30, 1885.

Ordered to be Printed.

P. M. HALE, STATE PRINTER AND BINDER.

ANNUAL REPORT OF THE AUDITOR OF THE
STATE OF NORTH CAROLINA, FOR THE FIS-
CAL YEAR ENDING NOVEMBER 30, 1885.

STATE OF NORTH CAROLINA,
AUDITOR'S DEPARTMENT,
Raleigh, Dec. 1st, 1885.

His Excellency, ALFRED M. SCALES,
Governor of North Carolina:

DEAR SIR:—In compliance with the provisions of section 3350 of The Code, I have the honor to submit herewith for your information, and transmittal to the next General Assembly, the Annual Report of this Department, showing a statement of the funds of the State, and of its revenues and public expenditures for the fiscal year ending November 30th, 1885, arranged and classified under the head of "Statements" indicated by letters.

Your attention is directed to statements E (receipts) and F (disbursements), with explanatory foot-notes to each.

The annual appropriation (\$30,000) made by the General Assembly for the relief of Confederate soldiers, &c., under an act ratified the 11th of March, 1885, the most of which has been apportioned, *pro rata*, to over 2,000 applicants, should have come within the year's disbursements, but as warrants to cover same were issued November 30, the close of the fiscal year, and

too late to be presented for payment, they are now outstanding against the Treasurer, and will be accounted for in the disbursement account the coming year. Of this appropriation, there is now remaining an unexpended balance—a fraction over two hundred dollars—which was reserved by the Board to meet extreme cases, both of soldiers and widows, whose claims could not be adjudicated before the close of the year on account of the absence of certain required proofs.

There were over 4,200 pension applicants, and the claims of more than 2,000 of these were disallowed, as they did not come within the meaning of the statute—the Board holding that to entitle applicants to the provisions of the act, the soldier must be disabled by reason of wounds received, and the widow by reason of the death of her husband from wounds. Many of these claimants, both soldiers and the widows of soldiers, are meritorious and deserve aid from the State, and to this end their claims have been filed for the action of the Legislature.

Your attention is directed to the statute which provides that all moneys paid out by the Treasurer shall be paid upon the warrant of the Auditor, and Art. 14, section 3, of the Constitution of the State provides that “no money shall be drawn from the treasury, but in consequence of appropriations made by law,” &c. I believe the Constitution should be strictly construed, and it has been suggested that it intended that warrants should be drawn on the treasury only to pay claims for which specific appropriations have been made, but it has been and is still the custom to issue warrants for claims arising under the laws directing certain work to be done for the State and providing methods for ascertainment of its value before the issue of a warrant. I beg, therefore, you will call the attention of the Legislature to the matter to the end that the law may be amended, if the suggested construction be correct.

I am, very respectfully,

Your obedient servant,

W. P. ROBERTS,

Auditor.

Supreme Court Reports, sale of,		1,426	93
Telegraph Companies, tax on,		333	26
Theatres, tax on,		775	00
Weights and Measures,		31	00
	\$	378,957	62

NOTE.—The receipts above enumerated foot up \$378,957.62, and are subject to three items of deduction ;

1st. \$41,500 accruing from the license tax on fertilizers, which is set apart by statute for the exclusive use of the Agricultural Department, and is no part of the State's revenues. It is chargeable, however, to State Treasurer, and although not audited by me, as in the case of other State institutions, the tax is paid into the treasury through this department, and the whole amount received applied by the Treasurer to the use of said Agricultural Department.

2nd. It will be remembered that the law requires the Treasurer to apply the dividends accruing to the State on account of its stock in the North Carolina Railroad Company to the payment of the interest on the bonds issued by the State on account of said Railroad. These dividends amount to \$125,646, and are a part of the public fund receipts.

3rd. \$50 received from sale of lot (Governor's Mansion) belongs to the fund for construction of "Governor's House." These items, to-wit, \$41,500 on fertilizers, \$125,646 dividends North Carolina Railroad stock, and \$50 for sale of lot (Governor's Mansion), aggregate \$167,196, and should be deducted from \$378,957.62, total receipts shown above, which will leave a total of public taxes collected for the support of State government and charitable and penal institutions \$211,761.62 proper, exclusive of the taxes collected from professions, trades, incomes, &c., which the law requires shall be invested in the consolidated bonds of the State, or applied to the payment of interest thereon.

No taxes for State purposes were computed on real and personal property on the tax lists for the year 1884, by reason of the fact that on the first day of May of that year the authorities of the Western North Carolina Railroad paid into the State Treasury the sum of \$600,000, as provided in Chapter 241, Laws 1883. (See Chap. 136., Sec. 52, Laws 1883).

NOTE.—The disbursements amount to \$795,486.26, but are subject to the following items of deduction, towit: \$41,500 on account of Agricultural Department, \$78,240 interest on dividends North Carolina Railroad, as above explained, and which constitutes a part of the Treasurer's disbursements, and \$50 for construction of a railroad from Statesville to Taylorsville. These items foot up \$119,790, and should be deducted from total disbursements, \$795,486.26, which will leave \$675,696.26 as legitimate expenditures provided for the support of the State government and penal and charitable institutions.

There are now outstanding against the Treasurer warrants amounting to \$29,765.50, on account of the appropriation (\$30,000) made by the General Assembly for the relief of Confederate soldiers, &c., under an Act ratified the 11th day of March, 1885. These warrants should have come within the year's disbursements, but as they were issued November 30, close of fiscal year, and too late for presentation of payment, they will be chargeable to the disbursement account for the coming year.
